2026 STEM SUMMER CAMPS

Are you looking to add engaging, educational, and fun activities to your summer schedule? Mad Science offers a variety of STEM-based programming that will captivate and inspire children of all ages.

CAMP DETAILS:

When: 9:00 AM - 12:00 PM /

9:00 AM - 3:00 PM

Dates: June 8th through July 31st, 2026

Where: Fisher Middle School

- Camps for kids ages 5-11
- New topics and activities every day
- Well trained dynamic instructors
- Exciting demonstrations
- Take-home activities

CHOOSE FROM OUR CAMP THEMES:

Brixology

Junior Inventors

Reactions in Action

Eco Explorers

Wacky Robots and Widgets

NASA: Journey into Outer Space

Dinos and Ancient Worlds

Jet Cadets

Spy Academy

Brixology (ages 6-11)

BRIXOLOGY builds the foundation for our next generation of makers! Take home a different LEGO™ inspired project each day! From carnival rides to machines that draw we take creativity to a whole new level and solve real-world design challenges! Let the tinkering begin!!

Junior Inventors (ages 6-11)

Creative Contraption Warning! This camp is designed by you—the Inventor! Each day you'll be given a series of challenges which must be overcome using basic materials, simple machines, tips from world famous inventors and the most important thing of all - your imagination!

Reactions in Action (ages 6-11)

Dive into the realms of the Chemical and Physical world in this crazy week of non-stop action - and Reaction! Explore our wonder lab and perform spectacular hands on experiments and continue the fun at home with the gadgets you've designed in the lab!

Eco Explorers (ages 5-10)

Use all your senses and explore the natural world around you. Have fun finding and magnifying nature's smallest creatures, pour plaster casts of animal tracks, and make recycled paper! Discover how birds thrive and solve the mystery of what Mr. Owl ate for lunch and more fun stuff!

Wacky Robots and Widgets (ages 6-11)

Whether you love to build things or destroy them, this camp includes lots of both! Design and build structures using simple tools and your imagination! The machine madness starts when you discover how different machines, both simple and complex, are used in our daily lives.

NASA: Journey into Outer Space (ages 6-11)

Mad Science and NASA have teamed up to bring you the excitement and wonder of space in this new voyage of discovery. See the principles of thrust and propulsion at work as we explore the atmosphere on earth and beyond! It's out of this world!

Dinos and Ancient Worlds (ages 6-11)

Dinosaurs, Myths, and Legends! Dig up some proof when little more than fables are left behind! Learn about archaeologist, paleontologist, and the techniques scientists use to excavate and discern fact from fiction! Study bone fragments, pottery shards, amber deposits, and fossils to understand what they can tell us about history!

Jet Cadets (ages 6-11)

Explore the basic principles of flight, ride a hovercraft, build airplanes, and create balloon copters! Then set your sights on outer space as you tour distant galaxies and learn about our home—the Milky Way. This hands-on Mad Science program introduces kids to aerodynamics and the wonders of the world above us!

Spy Academy (ages 6-11)

From decoding messages to metal detectors and night vision, campers check out spy tech equipment and take-home lots of gadgets! Step into the shoes of a detective as you uncover the science involved in evidence gathering and analysis! Become a super spy and learn clever ways of performing tasks as we take a hands-on view of the science that spies and detectives use!
